Private Tutoring over the Internet

Parents: Help your child improve their grades. Access a wide range of highly qualified tutors.

Tutors: Work from home and tutor students from around the world.

Students: A “totally cool” way to learn.

All our tutoring is completed in real time over the internet, using web cameras to deliver “live” video and audio communication between the tutor and the student.

Are you a qualified tutor? Would you like to teach students anywhere in the world? Go to www.mytutor.ca

Tutors are being accepted now from across Canada to be part of this exciting Internet based “live” tutoring program.

- Expand your reach.
- Reduce your costs.
- Increase your productivity.
- Create your own profile for world wide exposure of your experience and credentials.
